

Ultra[®]sky
SKYLIGHT by Ultraframe

SIMPLE, **STYLISH** ELEGANCE

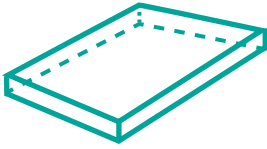

The Ultrasky Flat Skylight provides an element of style to extension and orangery roofs and **floods natural light** into previously dark and gloomy rooms.

SIMPLE, **STYLISH** ELEGANCE

The Ultrasky Flat Skylight provides an element of style to extension and orangery roofs and floods natural light into the room below. Its distinctive sleek, frameless edge to edge glass gives a stunning contemporary look that allows the largest possible amount of light to be brought into the room.

Sitting flush with the internal plasterboard, the Ultrasky Flat Skylight looks frameless from the inside, giving a bright open roof feel. The fully insulated frame with 'Warm Frame' technology combined with noise reducing glass means that Ultrasky Flat Skylight limits external noise and is unrivalled in thermal efficiency.
